

Momentum advises CableCom on the acquisition of WarwickNet

- Momentum Corporate Finance has advised CableCom Networking Holdings Limited on the acquisition of WarwickNet Limited.
- CableCom is a leading provider of broadband, TV and utilities for the student and residential markets.
- The acquisition of WarwickNet, which offers highly bespoke networks for corporates, broadcasting and data networks, showcases CableCom's appetite for expanding outside of the student and residential arena and widens its service offering in business sectors as well as its footprint across the UK.
- Momentum has worked with the management team since the secondary buy-out backed by Inflexion in 2013. The acquisition of WarwickNet was the second transaction on which Momentum advised the CableCom in 2016, following on from the acquisition of Glide in May.
- Managing Director of CableCom, Mark Burchfield, said:
"Once again we were delighted with the corporate finance advice from Momentum. They were great to work with and the insight provided by the team was invaluable at all stages of the transaction. It was an easy decision to choose them as our advisers again."

Momentum is a corporate finance boutique blending blue-chip experience and levels of service with an independent and entrepreneurial outlook
